

**THE
FEI World Cup™ Driving Rules
In effect for the season 2017-2018**

1. Introduction / General

- 1.1. These Rules must be read in conjunction with the FEI Rules and Regulations such as but not only the FEI General Regulations, the FEI Driving Rules, the FEI Veterinary Regulations, the Equine Anti-Doping and Controlled Medication Regulations and the Anti-Doping Rules for Human Athletes.
- 1.2. The present Rules shall apply to the category of Horses Four-in-Hand.
- 1.3. The FEI World Cup™ Driving (hereinafter the "Series") is divided into 2 phases: the FEI World Cup™ Driving Legs (hereinafter the "Legs") and the FEI World Cup™ Driving Final (hereinafter the "Final").

FEI World Cup™ Driving Legs:

- 1.3.1. If there are a total of six or eight FEI World Cup™ Driving Legs, the top ten qualified Athletes at the end of the Qualification Period (as set forth in these Rules) (the "Qualified Athletes") shall compete in three (in case of six) or four (in case of eight) Legs. In the event of Athletes attending four Legs, it is the score from the best three Legs that will count.
- 1.3.2. If there are a total of seven or nine FEI World Cup™ Driving Legs, the Qualified Athletes (as set forth in these Rules) shall compete in three (in case of seven) or four (in case of nine) Legs. In the event of Athletes attending four Legs, it is the score from the best three that will count.
- 1.3.3 The Final is open to the top 6 Athletes as at the end of the last Leg.
- 1.4. In the event that two or more Athletes are placed in 6th position, having equal points, the available position in the Final will be given to the Athlete with the highest number of first places achieved at the FEI World Cup™ Legs. If the Athletes are still tied with equal first places then the number of second places will decide, and so on until the tie is broken.
- 1.5. At each Leg, two competitions are held:
 - Competition 1 with a Drive-Off (Drive-Off 1)
 - Competition 2 with a Drive-Off (Drive-Off 2).
- 1.6. Competition 1 will determine the starting order of Competition 2. If there is a preliminary Competition before Competition 1, the preliminary Competition will determine the starting order in Competition 1.
- 1.7. The Final can be held over 2 or 3 days
 - 1.7.1. The Final consists of 2 competitions: Competition 1 (without Drive-Off) and Competition 2 with Drive Off.

2. The Qualification for the Series

- 2.1. The qualification for the Series takes place at approved CAI3*, CAIOs and CH-M-A4 (hereinafter "Outdoor Qualifiers").
 - 2.1.1. The qualification period for the Series season starts on 1st October and ends on 30 September, preceding the relevant FEI World Cup™ Driving season.
- 2.2. Five bonus points are awarded for CAIOs and FEI World Driving Championships.
- 2.3. Points are awarded for a place at the Series. Only best four results to count.
- 2.4. There is no maximum number of Outdoor Qualifiers.
- 2.5. There is no restriction on the number of Outdoor Qualifiers per country.
- 2.6. Only those Outdoor Qualifiers in which Four-in-Hand Athletes from 3 or more National Federations (hereinafter "NFs") compete can be submitted by an Athlete in support of qualifying for the Series.
- 2.7. No more than two Outdoor Qualifying Competitions from the Athletes' own NF can be submitted by an Athlete in support of qualifying for the Series.
- 2.8. The top Athletes from the Outdoor Qualifiers list qualify to compete in the Series. The Athletes qualify and not the Athlete-horse combinations.
- 2.9. A maximum of three Athletes per NF can take part in the Series. In the event that more than three Athletes from one NF finish in the top ten of the ranking list, that NF's Athletes with the highest points qualify for the Series.
- 2.10. If one of the qualified Athletes withdraws from the Series it must be communicated to the FEI, at the latest, 14 days after the last Outdoor Qualifiers. The next Athlete in the ranking shall replace the Athlete that has withdrawn subject to the limitation on the maximum number of Athletes per NF as set forth in these rules.
- 2.11. At each Leg, five of the 10 Qualified Athletes may compete, plus one to three Wild Cards.
- 2.12. The Athletes may choose which Legs they want to enter, based on their placings in the FEI World Cup™ Driving ranking.
- 2.13. After the last Outdoor Qualifier the top ten Athletes are asked to select the Legs of the Series as follows:
 - The winner of the FEI World Cup™ Driving ranking may select his 1st Leg.
 - Then the 2nd placed may select one Leg, and then the 3rd placed, then the 4th and so on down to the last qualified Athlete.
 - Then the 1st placed may select his second Leg and the same rule applies down to the last qualified Athlete.
 - In case two Legs are on the same date, each Leg will get five of the qualified top ten Athletes. Athletes from the NF where the Legs are organised have priority to select to what Leg they want to compete in.

General

- 5.5. Marathon-type obstacle: In the case of an altered or shortened course, the Course Designer has the option to remove a gate in a marathon obstacle, provided the sequence of the letters is kept (example: ABCDEF => removal of C and the sequence of the gate will become ABDEF).
- 5.6. In a Marathon type obstacle each gate becomes individually open once it has been passed. The parts without gates are free after the bell has rung and the Athlete crossed the start line.

- 5.15. Athletes who have been eliminated in Competition 1 may start in Competition 2 and will start in first positions.

6. The FEI World Cup™ Final

- 6.1. Subject to Rule 3.8, in the Final, the starting order for Competition 1 is in reverse order of standings after Phase 1 (Legs).
 - 6.1.1. Should there be a tie, the starting order of the tied Athletes will be decided by draw. The draw will be done by the PGJ.

An Athlete who does not finalise the Leg or the Final because the Athlete retires, is eliminated or for any other reason shall receive half of the prize money in question. Exception: see Article 8.9.

12. Specifications to the Rules

- 12.1. All balls, wooden blocks or other dislodgeable elements which are knocked down, remain on the ground until the Athlete has finished his course, unless the President

of the Jury has rung the bell and the single obstacle or element(s) of the Marathon type obstacle have to be rebuilt, or the exit or the entrance are knocked down from the bridge. In this last situation the cones have to be rebuilt without the bell being rung (see 12.13).

- 12.2. If in the course of the competition one ball of a single obstacle has been dislodged (a 5 second penalty is incurred), an additional 5 second penalty is given if the other ball on the same obstacle is dislodged later by whatever means.
- 12.3. If an Athlete displaces a ball of a single obstacle or collides significantly with an element of a Marathon type obstacle by any means, before the obstacle is driven, the President of the Jury rings the bell. The clock is stopped, at the most convenient time for the Athlete, before the obstacle in question is approached, to allow the resetting of the obstacle. In this situation a 10 second penalty is incurred for rebuilding an obstacle in addition to 5 penalty seconds for dislodging the ball, wooden block or whatever from the obstacle that has been replaced. No time correction.
- 12.4. Significantly colliding with an element of a Marathon type obstacle means that the element is moved or knocked over in a way that the Athlete has no possibility to continue his course through the lettered gates, or the obligatory gate is clearly changed in position and original width. In this case the President of the Jury must ring the bell.

If not significantly displaced, the President of the Jury does not ring the bell and the Athlete has to continue his course.

- 12.5. When the Marathon type obstacle is significantly changed and the Athlete cannot continue his course, the President of the Jury rings the bell immediately and stops the clock. After the obstacle is rebuilt he rings the bell again. The Athlete has to start the obstacle by the first obligatory gate (A) again. The clock starts as the Athlete passes this first obligatory gate. For each knocked down element a 5 seconds penalty and for rebuilding, each time, an additional 10 seconds penalty is added.
- 12.6. If an Athlete corrects a wrong course he has to restart at the gate he missed. Such as: if he went from A to C, then realises it, he restarts from B. The time runs on, no bell is rung.
- 12.7. When an Athlete has completed a Marathon type obstacle with or without knocking down one or more balls, wooden blocks or other type of dislodgeable elements (excluding the letters), and later on in the course, by whatever means, he knocks down one or more balls, blocks or other dislodgeable elements of this Marathon type obstacle (including the obstacle structure, even if the dislodgeable element belonging to it has already been knocked down), an additional 5 seconds penalty is incurred.
- 12.8. An Athlete must proceed directly between obstacles attempting to pass through such obstacles in the correct numbered order.
- 12.9. A Cone-type obstacle must be driven through by at least one wheel of the carriage. If one or two balls are dislodged, 5 seconds penalty per ball is incurred. It is not necessary for the horses to pass through the cones.
- 12.10. Should the reins, pole straps or traces become disconnected or broken or the carriage seriously damaged; or should a horse get a leg over the trace, pole or bar, the President of the Ground Jury must ring the bell and a groom(s) must dismount and reconnect or repair. The Athlete will be given a 5 seconds penalty for groom(s) dismounting. The clock will be stopped.

- 12.11. In case of obvious cruelty the President of the Ground Jury has the duty to ring the bell and disqualify the Athlete from the Event.
- 12.12. The width of the cones may be 1.90 m or 2.00 m. The width of all obstacles (excluding the bridge) must be the same but may be adjusted after Competition 1.
- 12.13. If the Bridge is passed through from both sides, such as No. 4 from the right and No. 12 from the left, the exit side is NOT neutralised, i.e. penalties can be incurred on both sides. If the ball of the cone is displaced when the carriage leaves the Bridge, the obstacle should be rebuilt without the bell being rung.
- 12.14. If the Athlete is on course and the bell is rung the Athlete must stop. If he does not stop after a repeated ringing of the bell he will be eliminated. The OC should have a bell, which is loud enough for the Athletes to hear, even with loud music.
- 12.15. The two Judges in the Judge's box and the Field Judges in the arena will meet following Competition 1 at all Events to discuss and make changes if required.
- 12.16. Video recording of the course, in accordance with the GRs Art. 157.4, is recommended for direct use of the President of the Ground Jury in the Judge's box.
- 12.17. All Athletes and Grooms must wear an approved Equestrian Safety Helmet (correctly fastened) whenever driving in the competition arena and in the warm-up arena before competition in all paces other than walk. Infringement will incur a Yellow Warning Card. A second offence will incur disqualification. As an exception to this rule, Athletes may remove their headgear while accepting prizes, during the playing of the National Anthem and any other ceremonial protocol. Such removal shall always be entirely at their own risk.
- 12.18. Grooms must wear a back protector in competition.
- 12.19. The cones forming an obstacle must be at least 30cm high and made of indestructible plastic material. The minimum weight for the cone is 2,5 kg (recommended weight range 2,5 to 4 kg) and the minimum weight for the balls is 200 gr (recommended weight range: 200 to 300 gr). The weight and dimensions of the cones and balls must be approved by the CD and/or the PGJ.
